It is a fantasy that extends beyond cultures, borders, gender, and age... The dream to counteract the pull of gravity, lift your feet from the ground, and ascend. We long for this sense of weightlessness, this shedding of our burdens, this lightness of being. To be both human and more than human, to reach the heavens. *the first time I walked on the moon* is a performance that explores this desire for the magical and the miraculous, this desire to escape from the monotony of everyday life and step into the unknown. ..
