All students and faculty are urged to attend and take an active part in the activities planned for October 15. It is important that we use this day to talk, think, and act on the problem of our continuing involvement in Vietnam. We can no longer be content with the empty promises and pronouncements of President Nixon. It is time to act: if you have classes scheduled, do not attend. Let's stop business as usual and show the warmakers that we mean it when we say, "end the war NOW!" Attend the activities, and help make the day a meaningful one.
