Friday November 14

- 9:30 A.M.: Town of Grinnell: leafletting
- 10:00 A.M.: Forum: assemble outside to go to Merrill Park to begin clean-up campaign. We are volunteering our services to clean-up trash and litter in the two parks outside of town. We feel that this effort is directly linked to our efforts in the town; by doing a constructive project for the town, rather than only "at" the townspeople, we hope to gain more support for our actions and a better relationship between the town and the College.
- 3:30 or 4:00 P.M.: Study group sponsored by Concerned Black Students on the black man's role in the peace movement. Location and exact time to be announced.
- 7:00-9:30 P.M.: Town of Grinnell: completion of canvassing.

In all of these activities, appearance is extremely important. For men this means considering haircuts. All men will have a chance to get a haircut free on Thursday morning. We realize the magnitude of the decision - being subjected to it ourselves - but feel that the impression we make on the town is of utmost importance. No one will be turned away from activities because of the length of their hair, but we do recommend all students seriously consider the proposition. In the matter of dress, this extends to skirts or dresses for women and coats and ties for men.
